

ENGINE COOLANTS

This list of manufacturers and suppliers of recycled engine coolants and coolant reclamation and reuse service providers was prepared to facilitate implementation of the U.S. Environmental Protection Agency's (EPA) Comprehensive Procurement Guideline (CPG) and to assist customers interested in purchasing and using products containing recovered materials. Some manufacturers provided the names and locations of regional or local suppliers.

Each listing is based on information provided by the manufacturer. Product information was not verified, and no guarantee, expressed or implied, is made as to the accuracy or completeness of the information provided. Inclusion in this listing does not represent an endorsement by EPA.

For information on or copies of the CPG, contact EPA's RCRA Hotline at 800 424-9346.

Engine coolant recycling methods include 1) power flushing the radiator and then restoring the coolant to the vehicle, 2) collecting coolant for bulk recycling, 3) onsite servicing by a mobile unit that restores and sells back the recycled coolant to the customer, or 4) shipping the coolant to a central service center (the shipper must be prepared to bear the costs of clean-up should a spill occur).

Some suppliers of onsite engine coolant recycling equipment and their products are listed below. There are a variety of processing methods in which costs and capacities vary greatly. Careful consideration, therefore, should be given to unit and operating cost information provided below so that equipment purchases can be tailored to agency needs. Since no industrywide standards exist for recycling equipment, the quality of the recycled product should be the final determinant. In making such determinations, the following factors should be considered:

Does the equipment have an acceptable "inhibitor balance" to prevent corrosion in customer vehicles?

What hazardous waste byproducts are produced as a result of the process?

How can those byproducts be safely disposed and what is the additional cost of that disposal?

Coolant Recycling Machine Manufacturers

Finish Thompson, Inc.
921 Greengarden Road
Erie, PA 16501-1591
Contact: Christine Plaza
Phone: 814 455-4478
Fax: 814 455-8518

High-Tech Industries, Inc.
17029 Devonshire Street, Suite 124
Northridge, CA 91325
Contact: John Randall or Gary Miller
Phone: 800 553-0509 or 818 993-9960
Fax: 818 993-4317

Kleer-Flo
15151 Technology Drive
Eden Prairie, MN 55344
Contact: John Kusske
Phone: 800 328-7942
Fax: 612 934-3909

Wynn Oil Company
1050 West Fifth Street
Azusa, CA 91702
Contact: Dale Johnson
Phone: 626 334-0231
Fax: 626 334-1456

They also sell chemicals to clean antifreeze.

Reclamation or Reuse Service Providers

Antifreeze Recyclers of Tidewater
4149 Thistle Circle
Virginia Beach, VA 23462
Contact: Steve Jacobs
Phone: 757 495-4000

City Radiator, Inc.
430 Bridge Street
Trenton, NJ 08611
Contact: Bob Jones
Phone: 609 394-3077
Fax: 609 599-2563

FPPF Chemical Company, Inc.
117 West Tupper Street
Buffalo NY 14201-2193
Contact: Anthony L. Tucci
Phone: 716 856-9607
Fax: 716 856-0750

They also sell chemicals to clean antifreeze.

Recycle Technologies, Inc.
151 Kings Row
Barrington, IL 60010
Contact: Gary L. Gunderson
Phone: 847 304-7868

Distribution: Illinois, Northern Indiana, and
Southern Wisconsin

They also sell a recycled antifreeze called Mac
Safe Antifreeze.

Preferred Reduction Services, Inc.
977 South 700, West
Salt Lake City, UT 84104
Contact: Al Dimora
Phone: 801 973-2220
Fax: 801 973-2137

SBX Robinair Technical Service
8001 Angling Road
Kalamazoo, MI 49002
Contact: Chad Reynolds
Phone: 800 822-5561
Fax: 616 329-0308
